DEFENSE CONTRACT AUDIT AGENCY

CHECKLIST FOR DETERMINING

ADEQUACY OF CONTRACTOR INCURRED COST PROPOSAL

*.Instructions: Auditors should complete this form for each incurred cost proposal submission and maintained a copy in the permanent file. Adequacy assessments of contractor incurred cost proposals include an assessment for completeness and accuracy of the submission, so the audit team can determine if the submission is auditable. Auditors are expected to use professional judgment in determining whether any specific missing/inadequate data or combination of missing/inadequate data is sufficient enough to warrant the submission as inadequate. The reviewer should consider the requirements of FAR 52.216-7(d) and the guidance in CAM 6-707.1 and 6-711.3b(1) when determining whether or not the submission is adequate. In making the assessment, the reviewer should determine if the proposal includes the required schedules and meets the requirements outlined in this checklist. **In addition, the reviewer needs to ensure that math calculations and formulas used in each schedule are accurate.** If the contractor generates internal reports identifying the required information in lieu of the example schedule, the reviewer should reference the contractor report on this form where the applicable schedule is listed.*

CHECKLIST FOR DETERMINING
ADEQUACY OF CONTRACTOR INCURRED COST PROPOSAL**

B. INSTRUCTIONS BEFORE ASSESSING PROPOSAL ADEQUACY

Determine if the contractor is the prime on at least one government flexibly-priced contract. If yes, determine if all claimed prime contract costs are for Non-DoD agency contracts. If the contractor does not have a DoD contract, contact the Non-DoD agency to determine need for the incurred cost audit.

If all claimed costs are for subcontracts, contact the cognizant DCAA office(s) of the upper-tier contractor to determine the need for assist audit(s).

Coordinate with Field Detachment if the schedules contain any classified contract(s) and/or subcontract(s); mutual agreement regarding the completeness and accuracy of the incurred cost proposal should occur before accepting the proposal as adequate.

Determine if the contractor is using a blending of compensation caps approach to account for compensation costs in accordance with FAR 31.205-6(p). If using a blending approach, the audit team should contact the Administrative Contracting Officer (ACO) to notify them that the submission includes a blending approach. In some cases, the audit team may already be engaged with the ACO on working to execute an advance agreement, but if not, the audit team should notify the ACO that an advance agreement is needed in accordance with the DDP Memorandum, “Use of Blended Rates to Implement Multiple Compensation Caps” (October 25, 2014). The audit team should offer to support the ACO’s execution of an advance agreement by performing a non-audit service under activity code 23600 (discussed in detail in MRD 16-PSP-005(R)). The audit team will still perform the adequacy assessment.

Sch	Final Indirect Cost Rate Proposal	Received Y/N/NA	Adequate Y/N	Comments
A	Summary of All Claimed Indirect Expense Rates, Including Pool, Base, and Calculated Indirect Rate.			
	1. Did the contractor identify all claimed pools, bases, and rates, including COM (if applicable)?			
	2. Did the contractor provide a cost schedule for each final indirect pool claimed on Schedule A (Schedules B and C)?			
	3. Did the contractor provide a cost schedule for each intermediate cost pool claimed on Schedule A (Schedule D)?			

**DEFENSE CONTRACT AUDIT AGENCY

	42. Do G&A labor totals tie to totals on Schedule B?			
	43. Do other indirect pool labor totals tie to applicable pool schedules?			
M	List of Decisions, Agreements, Approvals, and Description of Accounting/Organizational Changes (e.g., Advance Agreement for Blended Rates).			
	44. Did the contractor provide a negative response if this schedule was not completed?			
N	Certificate of Final Indirect Costs			
	45. Is the certificate signed by an individual of the contractor's organization at a level no lower than a vice president or chief financial officer of the business segment of the contractor that submits the proposal? (FAR 52.242-4(a)(3))			
O	Contract Closing Information for Contracts Physically Completed in this Fiscal Year			
	46. Are contracts reported here identified as physically complete, already closed or ready to close on Schedule I?			
	47. Does the schedule contain Level of Effort (LOE) information (LOE and actual hours), contract fee computations, period of performance, and contract ceiling amounts?			

**DEFENSE CONTRACT AUDIT AGENCY
CHECKLIST FOR DETERMINING
ADEQUACY OF CONTRACTOR INCURRED COST PROPOSAL**

	Overall Determination		
	Is the contractor’s incurred cost proposal adequate for audit?*		
	*If the overall determination is found to be inadequate for audit, provide rationale and support for your determination.		

If the proposal is determined adequate, but the contractor is using a blending of compensation caps approach and there is no executed advance agreement, return the proposal to the contractor due to lack of an advance agreement and notify the contractor to resubmit the proposal only after executing an advance agreement with the ACO.

If the proposal is incomplete, but determined adequate, contact the contractor to have them provide the necessary information to facilitate a timely audit.

If it is determined that the submission is inadequate, the auditor must provide a written description of any inadequacies to the contractor and contracting officer in accordance with FAR 42.705-1(b)(1)(iii). If the information needed is not provided in a timely manner, the FAO should request ACO assistance. Maintain any correspondence with the contractor and ACO regarding requests for the incurred cost proposal and requests for additional information with this form. If the contractor is using a blending of compensation caps approach and there is no executed advance agreement, the inadequacy letter should include the statement, “The proposal includes a blending approach of compensation caps without an advance agreement. An advance agreement is required when a blending approach is used; therefore, the submission should not be resubmitted until such advance agreement is signed.”

C. AUDIT LEADS

List any audit leads or other significant risk identified during the proposal adequacy evaluation (e.g., any known business system deficiencies that have a significant impact on the final indirect rate proposal for this FY, significant risk identified by the contracting officer, math errors, incorrect rates were used on schedules, etc.)

Audit Lead	Reference

**DEFENSE CONTRACT AUDIT AGENCY
CHECKLIST FOR DETERMINING
ADEQUACY OF CONTRACTOR INCURRED COST PROPOSAL**

D. CORRESPONDENCE

The contractor should be notified in writing of the need for additional information with a copy to the ACO. If the needed information is not provided in a timely manner, the FAO should request ACO assistance.

Date of Request	Information Requested	Date Information Received

Note: Attach any correspondence with the contractor regarding requests for the incurred cost proposal, requests for additional information if the proposal is not complete, and/or returning an inadequate proposal.
