

ROBERT J. LANDRY
REGIONAL DIRECTOR
EASTERN REGION

Mr. Robert J. Landry assumed the position of Regional Director, Eastern Region, Defense Contract Audit Agency (DCAA) in December 2022. Mr. Landry serves as the principle advisor to the Director and is responsible for the execution, total management, and operations of Eastern Region and its resources. He strategically leads approximately 650 employees in providing mission-critical contract audit and financial advisory services to the Department of Defense as well as other Executive Departments and foreign governments. He oversees and manages an annual operating budget of approximately \$80 million.

Mr. Landry has over 30 years of defense contract audit experience enabling him to effectively manage a broad spectrum of audits. In 2010, he initiated and executed a major restructuring that aligned auditors who perform audits for a single large defense contractor under one chain-of-command, which became the model of the Agency's 2016 Corporate Audit Directorate (CAD) realignment. In 2018, he became the Deputy Director, Raytheon/General Dynamics/BAE CAD, now the General Dynamics Raytheon Technologies (GDRT) CAD, and in March 2021 was appointed to the Senior Executive Service as the Director GDRT CAD. Under his leadership, the CAD eliminated a significant backlog of incurred cost audits, accomplished 39 major-contractor business system reviews to meet GAO commitments, reduced elapsed days on forward pricing proposals, and exceeded Agency goals, while focusing on employee development initiatives including a mock interview process and forums for new hires to connect while working virtually.

Throughout his career at DCAA, Mr. Landry has worked in numerous leadership roles, including Field Audit Office manager, Regional Audit Manager, and CAD Deputy Director. He was also the division chief for a Technical Programs Office managing a team of specialists providing technical audit advice to over 20 field offices. Mr. Landry served as the Raytheon Contract Audit Coordinator (CAC) for several years, a dual role of CAC for Raytheon and a Field Audit Office Manager. Prior to his Regional Director position, Mr. Landry served as the Director GDRT CAD.

Mr. Landry holds a Master of Science in Administration from Central Michigan University. He is a Certified Public Accountant in the State of New Hampshire. He attended the Federal Executive Institute's program of Leadership for a Democratic Society and obtained Level III DoD Financial Management certification. He has received numerous awards and recognition of excellent performance throughout his distinguished career in the Federal Government, most notably receiving DCAA's Petty Award in 2013 for Management Excellence. He is married, has two sons, and resides in Merrimack, New Hampshire.
